The Bonding Expert

About Us

Windson Chemicals Private Limited was established in the year 2000 out of sheer passion for chemicals. Initially it was indulged in manufacturing Liquid resins but has not only ventured into manufacturing Formaldehyde and Powder resins but through our consistent efforts and budgetary allocations into R & D, have secured a top spot into developing zero-emission resins. The company possesses ultra-modern infrastructure & work environment and is proud to hold the title of a zero emission green plant.

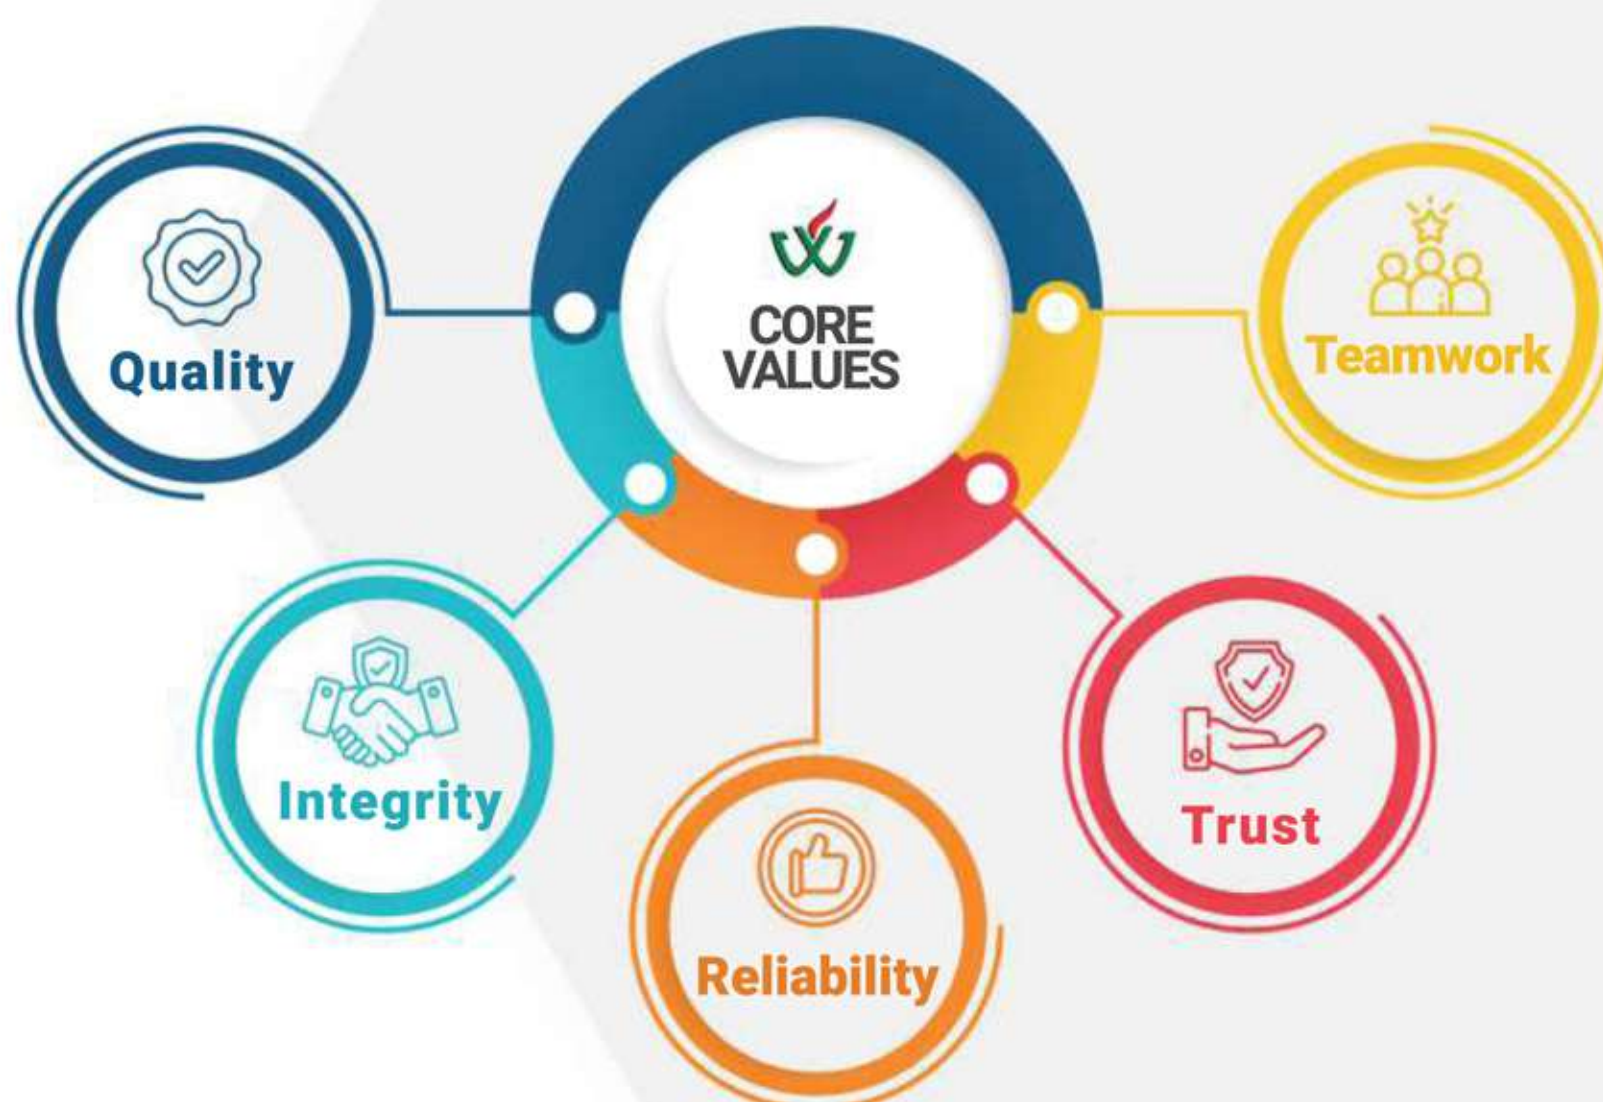

Windson is an ISO 9001:2015 certified company, committed to the quality of our eco-friendly solutions to our valued customers that are in search of environmentally-friendly practices. The standards of labour laws and safety protocols are strictly adhered to and well documented but we go above and beyond when it comes to the wellness of our employees. We boost quality in manufacturing operations with high performing, precise and high quality products and services.

The company today has manufacturing plants strategically located in both India and in Gabon (Africa) to cater to its Domestic as well as, International markets.

Through intensive developments and our emphasis on incorporating backward and forward integrations into our manufacturing practices, we are not only able to regulate our raw materials but also provide the finest quality products to our clients at competitive rates.

Our aim to expand our global reach and worldwide presence led to the establishment of WINDSON RESINS AND CHEMICALS SARL in GABON, AFRICA. Our product range includes resins for industries such as plywood, particle board, lamination, pharmaceuticals, leather, etc. almost similar to our India unit. Windson has grown many folds from one product to a range of product solutions. Today we are a well-established company, catering to domestic as well as international clients across the globe. Windson's success would not be possible without the contribution of our valued customers and employees who, with their skills and their passion, give voice, shape, and reality to the future.

Our Core Values

Product Application Areas

FEED

Our Product

WINDSON offers product verticals for a wide range of industries which includes resins in liquid as well as powder form. A detailed description of our product portfolio is as under:

WOOD PROCESSING

- Urea Formaldehyde Resin
- Melamine Formaldehyde Resin
- Melamine Urea Formaldehyde Resin
- Phenol Formaldehyde Resin

FOUNDRY

- Alphasit Resin
- Cold box Resin
- Acid cure Resin
- Shell Resin

RUBBER & TYRE

- Alkyl Phenol Formaldehyde Resin (PTOP)
- HMMM on precipitated Silica
- Resorcinol Formaldehyde Resin
- Melamine Formaldehyde Resin
- Phenol Formaldehyde Resin

PAINTS & COATINGS

- Hexamethoxymethylmelamine (HMMM)
- Alkyl Phenol Formaldehyde Resin (PTBP)
- Butylated Urea Formaldehyde Resin
- Butylated Phenol Formaldehyde Resin
- Butylated Melamine Formaldehyde Resin

MOULDING COMPOUNDS

- Straight Phenolic Resins
- CNSL Modified Resins

GENERAL APPLICATION

- Aqueous Formaldehyde Solution
- Phenol Formaldehyde Resin for **Insulation Wool**
- Urea Formaldehyde Resin for pellet binder in **Animal Feed**
- Sulphonated Naphthalene Formaldehyde (SNF) for **Concrete admixtures**
- Phenol and Naphthalene Sulphonic Acid (DN) for **Agro intermediates**

The World Trusts Windson Chemical

Global Presence

Our in-depth knowledge and expertise in the market enables us to fully understand all aspects of our clients' requirements and offer proactive solutions to deliver robust services. We began our journey as a local resin manufacturer supplying to our nation, but our ambition, vision and perseverance has paved our way through the globe. Windson has not only grown multifold and developed a huge product basket making its significant presence in the market, but also catered to customers and renowned clients worldwide. Quality products and business ethics are our chief acquaintance.
